

TRANSITION DENMAN ISLAND – REPORT AT THE AGM MONDAY, APRIL 11, 2016

1. Seedy Saturday – Jan. 30th
2. Humanure Toilet
3. Solar Panels
4. Dissolution of TDI

Seedy Saturday

Another successful Seedy Saturday was held on Jan. 30th. There was an increased attendance and interest in swapping seeds.

Humanure Toilet

The work on the Humanure toilet is continuing with Kevin Mitchel putting in windows and doors and building a throne, handrails, a ramp and whatever else is required.

Transition Denman Island will pay for most of it with help from the Old School Committee as required.

Solar Panels

The TDI participated in raising funds at the Christmas Craft Faire booth and in 2015 voted to support the Solar Energy Project for this Hall by donating \$2,500 to it. This money was given in 2016.

Dissolution of TDI

The TDI Committee decided in the Fall of 2015 to dissolve Transition Denman Island organization for several reasons: ill health of some members, the fact that many goals had been reached and that other groups were taking on the mandate.

A letter requesting that TDI be taken off the DIRA Committee roster will be sent as soon as the last funds \$1,267.39 are dispersed in the next few months.
